

BYRNE NOMINATED FOR RESERVE BOARD

Omaha Business Man Recommended by Bankers May Be Again on List.

CELEBRATES ITS ANNIVERSARY

ANSAS CITY, Mo., Nov. 17.—The federal reserve bank located here celebrated its first anniversary yesterday with the biggest day, since its opening. Loans, bonds, redemptions and investments at the close of business yesterday totaled \$2,000,000. Nominations for directors of the bank in class A, and B, are all in and these reported as follows: John C. Mitchell of Denver, unanimously named to succeed Gordon Jones of that city as class A director; Thomas C. Byrne, Omaha, unanimously nominated to succeed himself as class B director. The polls will be open for the vote of members of the bank until December 1, but the unanimous nomination, officers of the bank said, means the election of both these men on the board of the bank for a term of three years beginning January 1, 1916.

RENAMED NEBRASKA DIRECTOR FEDERAL RESERVE BANK.

SERBIAN ARMY IS IN GRAVE DANGER OF FLANK ATTACK

WASHINGTON, Nov. 17.—The federal reserve board issued a statement outlining recommendations for amendments to the federal reserve act made by the federal advisory council. In addition to the suggestions that the work of the office of the comptroller of the currency be absorbed and administered by the reserve board, the council recommended a reduction by two-thirds of the present capital stock of federal reserve banks, the subscribed capital to remain as under existing law. It suggested that the Clayton anti-trust act be amended in the section affecting interlocking directorate, so it would be lawful for an officer or director of one bank to hold office or be a director in another bank. The council expressed the view at the request of the board in respect to high interest rates by banks which are members of the system, that the demand for money is regulated by its accumulation or lack of accumulation in banking centers. It adopted a resolution declaring unalterable opposition to a plan that would make farm land bonds, such as have been proposed in connection with rural credit bills, security for loans from federal reserve banks, or to any measure that would make such bonds the basis for acceptance by member banks.

ASKS REOPENING OF HILLSTROM CASE

STROM had not been received by Governor Spry at 11 o'clock this morning and his information regarding the matter was obtained from the Associated Press. The governor would make no comment regarding his attitude in advance of receipt of the message. The president's second intervention in the case caused astonishment here, as Hillstrom's execution had been deferred fifty days already as a result of the president's first request and no new facts or reasons for clemency have been presented by Hillstrom's advocates. The case cannot be taken into court again as Hillstrom has exhausted all his legal rights.

Wilson Telegraphs Gompers. SAN FRANCISCO, Nov. 17.—A telegram from President Wilson to Samuel Gompers, president of the American Federation of Labor, assembled in convention here, informing Gompers that the president had asked Governor William Spry of Utah to reconsider the Hillstrom case, was read today at the opening of the federation convention. No action was taken on it and no comment was made.

Wilson Telegraphs Gompers. SAN FRANCISCO, Nov. 17.—The annual report of the Chicago, Rock Island and Pacific railroad and proprietary companies, now under receivership, for the year ended June 30 last, shows total operating revenues of \$70,947,500, an increase of \$1,511,415, an increase of 2.1 per cent and net operating revenues of \$17,428,374, an increase of 2.3 per cent. Balance of income in 1915-16, amounting to \$450,621, was changed to a balance deficit of \$134,776 last year.

State Board Figures Value of Corn Crop. LINCOLN, Nov. 17.—(Special.)—The corn crop of Nebraska for the present year is worth \$14,067,255, figuring at 50 cents per bushel, according to estimates prepared by the State Board of Agriculture from reports received from the county and precinct assessors in every county in the state. The acreage is shown to be 6,300,000 and the yield to be 228,044,726 bushels. The average yield per acre is thirty-two and one-half bushels.

DR. VEEDER, CONQUEROR OF TYPHOID, IS DEAD. ROCHESTER, N. Y., Nov. 17.—Major A. Veeder, A. M. D., died at Lyons last night, aged 67. Dr. Veeder was born in Ashabula, O., November 2, 1848, and had been a resident of Lyons for over thirty years. During the Spanish-American war he was first to make known the discovery of the fact that typhoid germs were carried by flies and it was on his authority that the government entered on its successful work of preventing the spread of typhoid fever in Cuba and during the campaigns of the United States army in tropical countries.

DESERTER FROM INTERRED VESSEL IS ARRESTED. BALTIMORE, Md., Nov. 17.—A man believed to have escaped from the interned German sea raider Prinz Eitel Friedrich at Norfolk was arrested here last night and is being held for federal officers from that city. According to the police he is a petty officer named Wagner. He denies that he is a deserter from the Eitel Friedrich, but the authorities declare they found papers in his room proving his identity as the man wanted.

FOR A BAD COUGH. Here is a fine old-fashioned remedy for coughs, colds, croup, whooping cough, and all the troubles that have been used for many years with great success. Best from your druggist 1 cent. Glycerin (Double Strength) and add to it 1 pint of hot water and 4 oz. of granulated sugar. Take one tablespoonful 4 times a day. No more racking your whole body with a cough. Clogged nasal trills should open, air passages of your head clear up so you can breathe freely. It is easy to prepare, costs little and is pleasant to take. Anyone who has a stubborn cough, or hard cold or croup in any form should give this prescription a trial.—Advertisement.

Rich Placer Strike In the Black Hills

RAPID CITY, S. D., Nov. 17.—(Special Telegram.)—Word was brought to town today, announcing the discovery of a rich placer gold strike in the Black Hills, thirty miles west from here. The report says that the miners claim to have made the discovery have panned out as high as \$1.55 to the pan. The town is wild over the report of the strike and there is an exodus to the new field that lies a short distance of what in the early days of the settlement of the Hills, was known as Camp Crook. It is presumed that the strike was made in one of the draws that leads down into Rapid Creek.

Private Bids for Navy are Too High

WASHINGTON, Nov. 17.—Because of the apparent failure of private bidders to keep their proposals within the \$7,800,000 limit of cost set by congress for the hulls and machinery of battleships Nos. 43 and 44, bids for which were opened today at the Navy department, construction of both vessels may be undertaken at government navy yards. The New York and Philadelphia government plants submitted estimates of less than \$7,000,000 each for ships propelled with the combination steam and electric drive to be used in the new superdreadnaught now building at the New York yard. These were the lowest bids, and the same yards also submitted the lowest figures for ships equipped with steam turbines, the basis of all but one of the private bids. The Mare Island navy yard with an estimate of \$7,413,156 for the turbine ship was next lowest.

WAR INCREASES THE COST

The lowest private bid was that of the Fore River Shipbuilding company, which submitted four alternate proposals. Each was made under stipulated modifications to the department's specifications, which apparently would bring the total cost far above the \$7,800,000 maximum. The bids of the other two private bidders, the New York Shipbuilding company and the Newport News Shipbuilding company, also proposed modifications, and a careful study will be necessary before the exact cost of the ships can be determined under each bid. The result of the European war's demands on American markets is shown by the fact that the hulls and machinery of the two battleships Minutepi and Idaho were contracted for at \$7,115,000 and \$7,260,000 respectively, a year ago, while today's private bids for virtually identical ships ranged from \$7,229,000 to \$7,726,000, with various qualifications, such as stipulations that the government must assume all insurance charges, pay for test trials and supply much portable material required to be furnished by the contractors in the advertised specifications, and providing for the substitution of cheaper grades of steel and timber than specified. New hull construction, due to plans to lessen the danger from torpedo attack, occasioned some of the increase.

DOOMING OF UNFIT INFANT TO DEATH CAUSES SENSATION

(Continued from Page One.)

day, Dr. Halseiden cited the case of Rowell Smith, a supposedly harmless detective, who, after reaching the adult stage, killed little Hazel Weinstein, for which he was hanged. A visitor, however, remarked that Fyodor Bostovsky, born a defective, a gambler and an epileptic, developed into a great novelist and one of the greatest physiologists in Europe.

Treat it as Uncanny. Most of the visitors today treated the baby as if it were uncanny. Dr. Halseiden, who had condemned it to death, alone treated it like a human being. He caressed its little twisted cheeks and said tenderly: "He will be dead before the night is over."

"It would be a moral wrong," he continued, "to allow this baby to live. It seems to me that a city which allows a black hand outrage every week, a thousand abortions a day, and an automobile accident every round of the clock is hardly in a position to criticize a man who holds that death is preferable to the life of a defective."

The telephone rang. Dr. Halseiden answered it and talked five minutes with a woman. She pleaded with him to save the baby's life. When he returned from the phone, he smiled, and said: "It is strange what a fuss people are making over this case, when all these abortions go unnoticed."

The little bundle, which was the center of all eyes, stirred and a feeble cry was heard. "Not much longer to wait, little one," said the doctor, gently, adding to those near him, "he is dying."

Up to Nature. Dr. Murphy said today: "The baby's life is in the hands of a higher power. Nature will provide the best remedy."

Dr. Rosalie M. Ladoga, commented: "A life is a life and I wish Dr. Halseiden would step aside and let someone else operate."

Clarence Darrow, the lawyer, known also as a humanitarian, remarked: "Chloroform unfit children. Show them the same mercy that is shown beasts no longer fit to live."

Former North Platte Man Is a Witness in California Will Case

SAN FRANCISCO, Nov. 17.—Expert testimony was offered here today to show that a will disposing of about \$750,000 was forged. Theodore Kytka, a handwriting expert, swore that Dr. Sarah J. Tedford's handwriting and that on the will, which purports to be the holographic testament of the late John M. Keith of Bakerfield, Cal., were the same. Previously Dr. Tedford, writing in court at dictation, testified that the handwriting which also was misspelled in the will. The mistakes were the same in each instance. Mrs. Louise K. Thompson, who says she is Keith's daughter, separated from him by a shipwreck in Alaska, is the beneficiary of the contested will. She is Dr. Tedford's sister-in-law.

Make Move for Rehearing. PIERRE, S. BODY OF NEGRO LEADER AT REST

Eight Thousand from All Walks of Life Attend Funeral Services at Tuskegee Institute.

TUSKEGEE, Ala., Nov. 17.—Prominent men from all walks of life, whites as well as negroes, attended the funeral of Booker T. Washington, the noted negro educator, race leader and author, which was held this morning at Tuskegee institute, which he made famous and has taken such an important part in the elevation of the negro race.

Fully 8,000 persons came to Tuskegee to pay the last tribute of respect to Dr. Washington. Only 2,500 could get into the chapel to hear the simple Episcopal burial service and hear the many old plantation songs which Dr. Washington loved so well.

Headed by the board of trustees, a procession including a number of distinguished visitors, members of the faculty and the executive council of the institute, formed in front of the school's administration building and marched to the chapel. The students followed. Burial was in the institute grounds.

Chicago Business Houses Close. CHICAGO, Nov. 17.—Business houses controlled by colored persons were closed for one hour here today during the funeral of Booker T. Washington.

A "For sale" ad will turn second-hand furniture into cash.

Authorized By Law

The Peters Trust Company has a permanent charter and is authorized by law to act in the capacity of Executor, Trustee, Administrator or Guardian. In making your Will, appoint this Company as your Executor.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breat Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a teaspoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.—Advertisement.

Thompson-Belden & Co

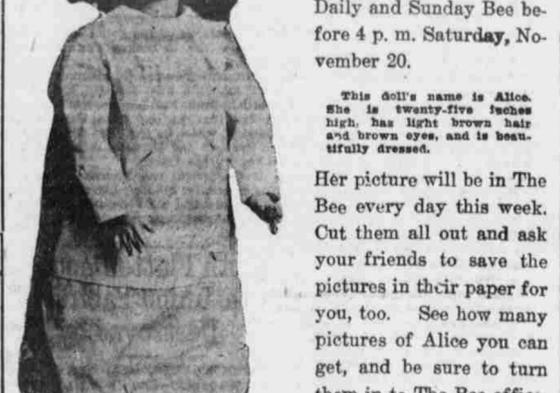

The Gift That You Make Is the Personal Gift

So many women are busy these days choosing lovely things to embroider—and other articles of fancy needlework are being made by the score.

Orders taken for Christmas work, too—but they must be in early. Classes at 10 a. m., 12 m., 3-5 p. m. Children's Class, Saturday Morning. Art Department—Third Floor.

For Our Little Busy Bees Free Dolls

This Beautiful Doll will be given Free to the little girl, under 10 years of age, that brings or mails us the largest number of doll's pictures cut out of the Daily and Sunday Bee before 4 p. m. Saturday, November 20.

Her picture will be in The Bee every day this week. Cut them all out and ask your friends to save the pictures in their paper for you, too. See how many pictures of Alice you can get, and be sure to turn them in to The Bee office, before 4 p. m. Saturday, November 20.

You Can See Alice at The Bee Office

AMUSEMENTS.

Orpheum. Daily Matinee, 2:15. Every Night, 8:15. Other acts this week: Billie Burke's "Tango Shoes"; Ralph Quaker's "Sally Stagers"; Charles (Chico) Gale; "Tipton"; Marie Bishop; Queenie Dundee; Orpheum Travel Weekly. Prices: Matinee Gallery, 10c. Best Seats (Matinee and Sunday), 25c. Night, 35c. 50c. and 75c.

AMUSEMENTS.
